

CONTENTS

Preface	I
Welcoming Address of the President of ICSOBA, Professor S. S. Augusti- this	VII
Opening Address of the General Secretary of ICSOBA (Professor Olga Lahodny-Šarc)	IX
Address of Dr. L. Kapolyi, Secretary of State of PR of Hungary	XIV
 BAUXITE AND BAUXITE DEPOSITS	
<i>Genetical and geological problems</i>	
W. D. Keller, O. M. Clarke — Weathering of nepheline-syenite to kaoli- nite and gibbsite in Arkansas illustrated by scanning electron mi- crographs	1
G. Krishna Rao, O. Lahodny-Šarc, Z. Dragčević, W. D. Keller — Bauxi- tization at the Shevaroy Hills, India	5
I. Valetón — Paleogeographical interpretation of the world-wide distri- bution of oxisols (laterite bauxites) in the Lower Tertiary	11
A. Grubić, S. Tīmotijević — New bauxite deposits on the Zlatibor Moun- tain	23
Z. Maksimović, Biserka Šcavničar, A. Dangić — The origin of Karstic bauxites from the Vlasenica area, Yugoslavia	29
F. Trubelja, J. Papeš — Bauxites of Central Bosnia (the surrounding re- gion of Jajce)	39
F. Trubelja, Z. Maksimović — Reworked lateritic bauxites of Triassic Age near the village Ljuša, Bosnia, Yugoslavia	51
A. Mindszenty — Late Senonian morphological evolution of the Iharkut Karst area as reconstructed on the basis of the sedimentological fea- tures of the bauxite	61
M. Laskou, F. Paulik, J. Paulik — Contribution to the knowledge of bau- xite deposits in the Locrida, Greece	73
S. Papastavrou, V. Mitsaki-Hafner — Geology of Vroderon Laterite depo- sit in Northern Greece	85
G. Krishna Rao, K. Suryanarayana — Bauxitization in Eastern Ghats of India — Effects of environment	95
B. Boulangé — Aluminium concentration in a bauxite derived of granite (Ivory Coast): Relative and absolute accumulation	109
 <i>Mineralogy</i>	
R. Gout, J. L. Dandurand — Phase equilibria in the system $Al_2O_3-H_2O$	117
J. Nedoma, M. Styczyńska — Lauegraphic characteristics of $\alpha-Al_2O_3$ sin- gle crystals	127

IV

Geochemistry

- N. Ozlu* — Study of geochemistry of V, Cr, Mn, and Ni in the Akseki-Seydisehir bauxite deposits 135
- A. K. Nandi, A. D. Slukin* — Essential differences in mineralogy and geochemistry of Indian lateritic bauxites formed on acid and basic rocks 145
- G. Krishna Rao* — Geochemistry of bauxite deposits of the Shevaroy Hills, Salem District, Tamilnadu, India 157

Rare elements

- P. Vukotić, D. Dragović* — Distribution of rare-earths elements in samples from Bijele Poljane 181
- Z. Maksimović, G. Pantó* — Mineralogy of Yttrium and Lanthanide elements in Karstic bauxite deposits 191

Chemistry

- J. Perić, R. Krstulović* — Kinetics of gibbsite and boehmite digestion 201

Exploration and prospection

- P. Marijanović, S. Vujec, R. Marušić* — Construction of the average profile of irregular bauxite orebodies in Karstic paleorelief 209
- J.-P. Combes, G. Andréou* — Utilisation de la paléogéographie pour la prospection de bauxite dans une région de nappe: Un exemple au nord de Distomon (zone du Parnasse, Grèce) 223

Mining

- T. Böcker, K. Hegyi-Hoványi* — Multiscale mathematical modelling of carbonate type aquifers for planning dewatering systems in bauxite mining 233

Beneficiation

- R. Gout, P. Valero, G. Verdes* — Structure and properties of aluminas and boehmite activated by grinding 243
- S. N. Groudev, V. I. Groudeva, E. C. Petrov* — Biological leaching of aluminium from aluminosilicates 249
- V. I. Groudeva, S. N. Groudev* — Bauxite dressing by means of bacillus circulans 257

Resources classification

- E. Mack* — Bauxite resources classification 265

Economics

- J. Lotze* — The influence of bauxite pricing on the development of bauxite resources with particular reference to fiscal costs 275
- V. G. Hill, S. Ostojić, E. Robson* — On bauxite assays and the relative valuation of bauxite traded 291

NON-BAUXITIC ALUMINIUM SOURCES

- G. Abbruzzese* — Hydrochemical extraction of alumina from coal ash 305
- J. P. Sancho, L. F. Verdeja, M. A. Llavona* — Kinetic parameters of aluminium extraction from Spanish clays with sulfuric acids 315

ALUMINA

Bayer procedure

- B. Cristol, J. Mordini* — Mathematical model of grain size distribution in alumina trihydrate precipitation in the Bayer process 323
- G. Lever* — Some aspects of the chemistry of bauxite organic matter on the Bayer process: The sodium oxalate-humate interaction 335
- A. Lectard, F. Nicolas* — Influence of digestion on the metabolism and solubilization of organic impurities 345
- F. Brindel, A. Lectard* — Analysis of total organic carbon and species in Bayer liquors. Use of ion chromatography 353
- V. V. Grachev, V. M. Samoilenko, N. G. Turin* — On interaction of sulfur compounds with bauxite components 361
- J. Katanić-Popović, M. Gašić* — The effect of some dopes on the properties of γ -Al₂O₃ 369
- K. Solymár, M. Orbán, J. Zöldi, G. Baksa* — Methods for reducing NaOH losses in the Hungarian alumina plants 377

Alumina properties

- Z. G. Szabó* — On some curious properties of alumina 391
- B. S. Maruti Prasad, R. Muralikrishna, M. N. Sastri* — Properties of alumina samples prepared from homogenous solutions using various precipitating agents 395

New technologies

- S. Michalowski, K. Morkowska, J. Porowski, M. Balasiewicz* — The problem of scale enlargement in Bretsznajder's acid method of alumina production 401
- J. Porowski, E. Morkovska, S. Michalowski, D. Kriger* — The role of leaching and filtration in estimation of different kinds of alumina raw materials for production of aluminium compounds by the Bretsznajder method 409
- Ž. D. Živković, J. J. Črnko* — Physico-chemical characteristics of the acid kaolin leaching residue of the Copper Mine Bor flotation tailings 417

By-products

- H. Mešević, B. Lovreček* — Electrolytic extraction of Gallium from aluminate solutions of Bayer process 423
- J. Mátyási, G. Kaptay, M. Tóth Benjaminsné* — Ceramic technological properties of low soda special aluminas 433
- G. Z. Nasyrov, I. V. Ravdonikas* — Complex waste-free technology for coproduction of pure vanadium pentoxide and sodium hydrophosphate in recovery of alumina from bauxites and alunites 447
- L. G. Romanov, A. O. Bajkonurova, G. I. Edilbajeva* — Physico-chemical investigation of vanadium concentrates of alumina production 453

Energy problems

- G. Veres, I. Vörös, Z. Oswald, I. Fodor* — Cooperation between alumina plants and national energy supply systems 459

VI

RED MUD

- J. J. Črnko, Z. D. Živković — Complex analysis of the ferrous product separated from caustic solution in the course of a red mud processing 467

ALUMINIUM

Technology

- R. Ødegård, S. Rolseth, S. Rønning, J. Thonstad — On the alumina phase transformation and crusting phenomena in the Hall-Heroult process 471
- Z. Blažević — La perte au feu d'alumine pour le traitement à sec dans l'électrolyse d'aluminium 479
- A. A. Kostjukov, N. I. Anufrieva, Z. N. Balašova — Phase composition of industrial bath and cryolite ratio control methods 489
- D. H. Jenkins, H. N. Sinha — Production of anhydrous aluminium chloride from aluminium chloride hexahydrate 497

Alloys

- R. P. Lath, P. R. Chaudary, A. K. Roy — Development of aluminium-zinc-magnesium alloy extrusions: Some practical aspects 505

GENERAL POLICY

- E. T. Balasz — UNIDO's assistance programme for the bauxite-aluminium industry in developing countries 517

PAPERS NOT AT THE ZAGREB CONGRESS *Original scientific papers*

- P. L. C. Grubb — Genetic and compositional aspects of bauxite in Zimbabwe and Mocambique 527
- J. N. Economopoulos, A. Papayannopoulou-Economou — Geophysical prospecting for bauxite in the Parnassus area, Greece 541
- I. Riedl, Z. Horváth, A. Mihalik, I. Lakatos, P. Gadó, O. Klug, A. Imre — Kinetics of SiO₂ dissolution during bauxite digestion 547

OBITUARY

- Miroslav Karšulin in memoriam (*H. Iveković*) 567
- Author Index of Zagreb Congress 571
