

## CONTENTS

v	Preface . . . . .	I
—	Welcoming Address of the President of ICSOBA (A. A. Augustithis) . . . . .	V
v	Welcoming Address of the General Secretary of ICSOBA (O. Lahodny-Sarc) .. . . .	VII
<i>NONBAUXITIC RAW MATERIALS</i>		
	<i>R. C. Kirby, J. A. Barclay</i> — Alumina from nonbauxitic resources . . . . .	1
	<i>H. J. Hittner</i> — Hydrothermal alkaline process to extract alumina from anorthosite . . . . .	13
	<i>C. Abbruzzese, G. Rinelli</i> — Leucite bearing rocks as an alternative source for alumina production in Italy . . . . .	23
	<i>A. Cocco, I. Colussi, S. Meriani</i> — An overall evaluation of a new process for alumina production from leucite-bearing rocks . . . . .	31
	<i>P. Massacci, M. Pinzari, M. Sciotti</i> — The Latium »leucitic tuffs« as a source for the extraction of alumina or aluminium . . . . .	39
	<i>M. F. Landi</i> — Study of the behaviour of alkali aluminium silicates in the carbothermic reduction process . . . . .	53
—	<i>N. S. Smorgunenko, V. V. Vlasov</i> — Processing alunite with the use of sulfuric acid to produce alumina, sulfuric acid, potassium sulfate and other products by VAMI method . . . . .	65
	<i>J. P. Sancho, J. G. Iglesias, C. Brime, L. F. Verdeja</i> — Mechanical activation of non bauxitic aluminous ores . . . . .	71
	<i>J. P. Sancho, L. F. Verdeja, M. Encinas, C. Brime</i> — Some new contributions on the processing of non bauxitic aluminous ores . . . . .	83
	<i>M. Belsky, F. A. Schwind, G. Winkhaus</i> — A concept for alumina extraction from lignite-bearing clay with hydrochloric acid . . . . .	99
	<i>K. B. Bengston, P. Chuberka, R. F. Nunn, W. A. Phillips, L. Malm, A. V. San Jose</i> — Some technical and economic comparisons of six processes for the production of alumina from non-bauxitic ores . . . . .	109
	<i>Ž. Živković, N. Pacović, D. Randić</i> — Treatment of flotation tailings and kaolinite recovery from Bor Copper Mines . . . . .	133
<i>NEW PROCESSES</i>		
	<i>H. Iveković, A. Janeković</i> — Aluminium sulfate hydrate and alumina production through bauxite extraction by chelating organic solvents . . . . .	141
	<i>K. Motzfeldt</i> — Carbothermic reduction of alumina . . . . .	145
	<i>A. Paulin, B. A. Jobson, S. Vukčević</i> — Chloration of aluminous materials in fluidized beds . . . . .	161

<i>L. KAPOLYI, Gy. VAMOS, Sz. RIEDERAUER, J. SZÉPVÖLGYI</i> — Complex processing of aluminium silicates by dry technology . . . . .	171
<i>J. ZÁMBÓ, L. MOLNÁR, P. SIKLÓSI</i> — A new process for the complex processing of iron-rich bauxites . . . . .	183
<i>E. BIANCOTTI</i> — The Hunter continuous casting process: 50% more of aluminium strip than by hot mill rolling . . . . .	193
<i>V. G. LOGOMERAC, J. J. ČRNKO</i> — Occurences of rare-earth elements in leucite rocks near Gnjilane (Kosovo, Yugoslavia), and possibilities of their recovery . . . . .	201
<i>Z. D. ŽIVKOVIĆ, M. TECILAZIĆ-STEVAHOVIĆ, T. JANAČKOVIĆ</i> — Kinetics of boehmitic bauxite dehydration processes . . . . .	209
<b>BAYER PROCEDURE, WITH VARIANTS AND IMPROVEMENTS</b>	
<i>Z. Blažević</i> — Les effets énergétiques pendant l'introduction des procédés nouveaux pour la production d'aluminium . . . . .	219
<i>R. Bacchiega, A. Lama</i> — Distribution of electric current in the metal fused on the cathode, and duration of the carbon lining in the electrolysis of alumina . . . . .	227
<i>E. Herrmann</i> — On the change of the mass ratio $\text{Na}_2\text{O}/\text{SiO}_2$ and $\text{Na}_2/\text{TiO}_2$ by adding lime to the bauxite digestion according to the Bayer process . . . . .	261
<i>R. Krstulović, J. Perić</i> — Comparative experiments in bauxite digestion . . . . .	269
<i>V. V. Gračev, S. I. Kuznecov, A. E. Manin, V. M. Samojlenko</i> — Chemistry and technology of alumina extraction from high-sulfuric bauxites . . . . .	279
<i>B. E. Raahauge</i> — The fast-fluid-flash principle — a new simple approach in alumina calcining . . . . .	287
<i>C. Jelačić, Z. Andrić, A. Sečerbegović</i> — Investigation of vanadium concentration during the treatment of bauxite in a just erected plant . . . . .	297
<b>VARIOUS</b>	
<i>B. Czeglédi, L. Stocker, Sz. Riederauer</i> — Deironing technology of bauxites by hydrochloric acid . . . . .	305
<i>A. Kontopoulos, J. Sideris, A. Moropoulou</i> — Prereduction roasting-smelting of the Grecian red mud . . . . .	315
<i>O. El Badry, M. Hassaan, A. El Sheimi</i> — Contribution to geochemistry of some claystones and kaolinities of Kalabsha, Egypt . . . . .	325
<b>PAPERS NOT AT THE CAGLIARI SYMPOSIUM</b>	
<i>S. S. Augustithis, A. Vgenopoulos</i> — Element leaching in bauxites . . . . .	333
<i>P. — J. Combes, E. Fourcade, J. — P. Masse, J. Philip</i> — Observations stratigraphiques et paléontologiques sur la Crétacé de la zone du Parnasse (Grèce) . . . . .	347
<i>P. Vukotić, D. Dragović</i> — Rare earth elements distribution patterns in red bauxites of Crna Gora (Yugoslavia) . . . . .	367
<i>Ž. D. Živković, M. Filipović</i> — Change of granulometric composition during calcination of aluminium hydroxide . . . . .	383
<b>OBITUARY</b>	
<i>Luka Marić in memoriam (V. Majer)</i> . . . . .	391
<i>In commemoration of George Ivanović Bušinskij (M. G. Sapožnikov)</i> . . . . .	393
<i>Vladimir Logomerac in memoriam (R. Marušić)</i> . . . . .	397
<i>Author Index of the Cagliari Conference</i> . . . . .	399
